D. E. Shaw group.

Mumbai Maharastra

IN 400064

Dear Hiring Manager,

I am writing to express my strong interest in the Software Developer position at D. E. Shaw group, as advertised. With a Bachelor's degree in Computer Science and a deep passion for technology-driven solutions, I am excited about the opportunity to contribute to your esteemed firm, known for its innovation, risk management, and excellence in the financial sector.

During my academic journey at Amity University Gwalior, I have built a solid foundation in programming languages such as Java, Python, and C++. My experience in developing software solutions through coursework in data structures, algorithms, and software engineering methodologies has prepared me to tackle complex challenges effectively. I am confident that my technical background, combined with my problem-solving skills, will allow me to deliver impactful contributions to the D. E. Shaw group's software development teams.

What excites me most about this role is the opportunity to engage in a broad range of technologies and projects, from catering to trading desks to contributing to research, design, and development across the firm. I am particularly drawn to D. E. Shaw's culture of continuous learning and its commitment to fostering a collaborative and inclusive environment. My proficiency in Java, Python, and C++—along with experience in React, RESTful Web Services, and databases—aligns well with the requirements of the role.

I am eager to contribute to the success of the D. E. Shaw group and further enhance my skills by working on cutting-edge technologies and complex projects. I would welcome the opportunity to discuss how my background, skills, and enthusiasm for technology align with the goals of your team. I am available for an interview at your earliest convenience and can be reached at 9685615029 or via email at [anubhavterm121@gmail.com](mailto:anubhavterm121@gmail.com).

Thank you for considering my application. I look forward to the possibility of contributing to the D. E. Shaw group.

Warm regards,

Anubhav Khandelwal
